PROFESSIONAL SUMMARY

Advanced Computer Engineering student with hands-on experience in full-stack software development, Machine Learning, cloud computing, and cybersecurity. Built end-to-end projects: from Computer Vision models deployed on offline mobile devices (SensAi) and social apps with automated DevSecOps pipelines (Tribe), to AWS infrastructure managed with Terraform. Known for fast learning, adaptability, and the ability to bridge development, infrastructure, and security into robust solutions.

TECHNICAL SKILLS

Programming Languages: Python (Advanced), JavaScript/TypeScript, Java, Kotlin, SQL.

Full Stack Development: React, React Native, Angular, Node.js (Express), Spring Boot, REST APIs.

Machine Learning & AI: TensorFlow, YOLOv8, Scikit-learn, OpenCV, ONNX Runtime, Pandas, NumPy, Label Studio.

Cloud & DevOps: AWS (Certified Cloud Architecting), Docker, Terraform (IaC), CI/CD, Linux, Git, Firebase.

Databases: PostgreSQL, MySQL, MongoDB.

Data & BI: ETL (Pentaho / IBM DataStage), Power BI, Power Query.

Cybersecurity: OWASP Top 10, PCI-DSS, ISO 27001, Server Hardening, Vulnerability Analysis, Active Directory, SIEM, Auth (JWT/OAuth2/Biometrics).

Languages: Spanish (Native), English (C1 – Advanced).

WORK EXPERIENCE

Delivery Manager Jr. | Red Link *November 2024 – Present*

- Coordinate production deployments and migrations for 10+ banking entities (BCRA), managing environments and resolving blockers in distributed architectures using Scrum.
- Build executive dashboards in Power BI and SQL queries to analyze team performance metrics and business KPIs, supporting data-driven strategic decisions.

Information Security Intern | Red Link *May 2023 – November 2024*

- Executed vulnerability assessments and server hardening on critical infrastructure, collaborating with infrastructure teams to mitigate risks ahead of internal and external audits.
- Automated PCI-DSS compliance controls via Python scripts and contributed to defining role matrices and Active Directory-based policies.

Business Intelligence Intern | Efectivo Sí *July 2022 – May 2023*

- Designed and executed ETL pipelines with Pentaho and IBM DataStage to integrate and cleanse high-volume financial data.
- Developed Python scripts for exploratory data analysis (EDA) and modeled data for strategic Power BI dashboards that supported business decisions.

FEATURED PROJECTS

SensAi | Computer Vision & Edge AI — Android *Mobile app assisting visually impaired people by detecting urban obstacles in real-time.*

ML End-to-End: Trained 3 custom models (YOLOv8) on proprietary datasets (~2,400 images), optimized with ONNX + Quantization, and deployed on Android for offline inference ~50 ms/frame.

Stack: Python · TensorFlow · Kotlin · ONNX Runtime · Label Studio · OpenCV.

Tribe | Mobile Social Network — DevSecOps *Social network with biometric auth, gamification, and an automated security pipeline in CI/CD.*

Security: Implemented native biometric authentication (JWT + refresh tokens + Magic Links) and a DevSecOps pipeline with SAST (Semgrep), DAST (OWASP ZAP), secret scanning (Gitleaks) and OWASP Top 10 tests on every PR.

Stack: React Native · Node.js · MongoDB · JWT · GitHub Actions.

MoodFlix | Full Stack Web Platform *Movie discovery web app with CRUD playlists, embedded trailers, and streaming platform filters.*

Development: Built frontend (React/Vite/Tailwind) and backend (Node.js/Express/MongoDB) with JWT auth, TMDB API integration, and responsive design.

Stack: React · Vite · Tailwind CSS · Node.js · MongoDB · JWT · TMDB API.

Deliver.ar | Marketplace — DevOps & Cloud *Marketplace with full infrastructure as code and automated CI/CD pipeline.*

DevOps: Defined complete AWS infrastructure (VPC, EC2, RDS PostgreSQL, Load Balancer, IAM) with Terraform and configured CI/CD with automatic production deployments on every push to main.

Stack: Terraform · AWS · Docker · Java Spring Boot · React · TypeScript · PostgreSQL.

EDUCATION

Computer Engineering | UADE – Universidad Argentina de la Empresa *2020 – Present (45 courses completed)*

Systems Analyst | UADE – Universidad Argentina de la Empresa *2020 – 2024 (Completed)*

CERTIFICATIONS

AWS Academy Cloud Foundations | Amazon Web Services (2024)
